

STONE PLUS®

"Your source for stone, hardscape & landscape supplies"

The Stone Plus Difference

Being a supply only company, we understand that the need of an extensive inventory is just part of the package. Our strength lies in the quality of that inventory and our ability to deliver that inventory to your site in a timely and professional manner. From the employee who receives your order, all the way through the delivery personnel, we have one thought in mind, to ensure that Stone Plus has a satisfied customer.

Extraordinary customer service, honesty, integrity, quality, quantity and variety are the standards that Stone Plus began with and continues to operate on today. The minute you walk through our doors the staff members make you feel welcome and comfortable.

We have improved on the old saying "give the customer what the customer wants". Our version is "give the customer what the customer needs". This creates real value instead of just perceived value.

When you have an idea, Stone Plus is where to start. With our knowledgeable staff we can help guide you from concept and design, through "how-to" and maintenance. The facilities are neat, clean and well organized so products are easily accessible. Staff members are ready to help with any questions or loading materials into your vehicle.
